Lithium Thionyl Chloride Battery  
Brief Datasheet Model: ER18505M

1. Basic Specification (Typical values relative to cells stored for one year or less at +30°C Max.)

<table>

Customized a variety of JST/MOLEX/ORTH etc. connector, terminal, Please contact HJBP engineer.

*The power type is spiral structure and best suit for medium-large current discharge.
*It may require depassivation before medium currents can be delivered.

2. Electrical Characteristics and Dimension
3. Key feature

★ High and stable operating voltage.
★ Stainless steel container
★ Non-flammable electrolyte
★ Hermetic glass-to-mental sealing
★ Low self discharge rate (less than 1% after 1 year of storage at +25°C)
★ UL1642, CE certification, UN38.3, MSDS/SGS/ROHS test reporter, ISO19001 quality control system

4. Main applications

★ Utility metering
★ Military electronics
★ Memory back-up
★ Automatic meter reading
★ Alarms and security devices
★ Professional electronics
★ Automotive electronics
★ Tollgates systems

5. Warning

* Please Keep away Fire, explosion and severe burn hazard.
* Please Do not recharge, crush, disassemble, heat above 100°C.
* Please Do not solder directly to cell.

Note: Any representations in this brochure concerning performance are for informational purposes only and are not construed as warranties either expressed or implied, of future performance.
