Lithium Thionyl Chloride Battery
Brief Datasheet Model: ER34070

1. Basic Specification (Typical values relative to cells stored for one year or less at +30℃ Max.)

Customized a variety of JST/MOLEX/ORTH/HER etc. connector, terminal, Please contact HJBP engineer.

*Energy type is bobbin structure and best suit for low current discharge.
*It may require depassivation before medium currents can be delivered.

2. Electrical Characteristics and Dimension
3. Key feature

- High and stable operating voltage.
- Stainless steel container
- Non-flammable electrolyte
- Hermetic glass-to-mental sealing
- Low self discharge rate (less than 1% after 1 year of storage at +25°C)
- UL1642, CE certification, UN38.3, MSDS/SGS/ROHS test reporter, ISO19001 quality control system

4. Main applications

- Utility metering
- Military electronics
- Memory back-up
- Automatic meter reading
- Alarms and security devices
- Professional electronics
- Tollgates systems

5. Warning

* Please Keep away Fire, explosion and severe burn hazard.
* Please Do not recharge, crush, disassemble, heat above 100°C.
* Please Do not solder directly to cell.
